

MK-9.5 / MAX S

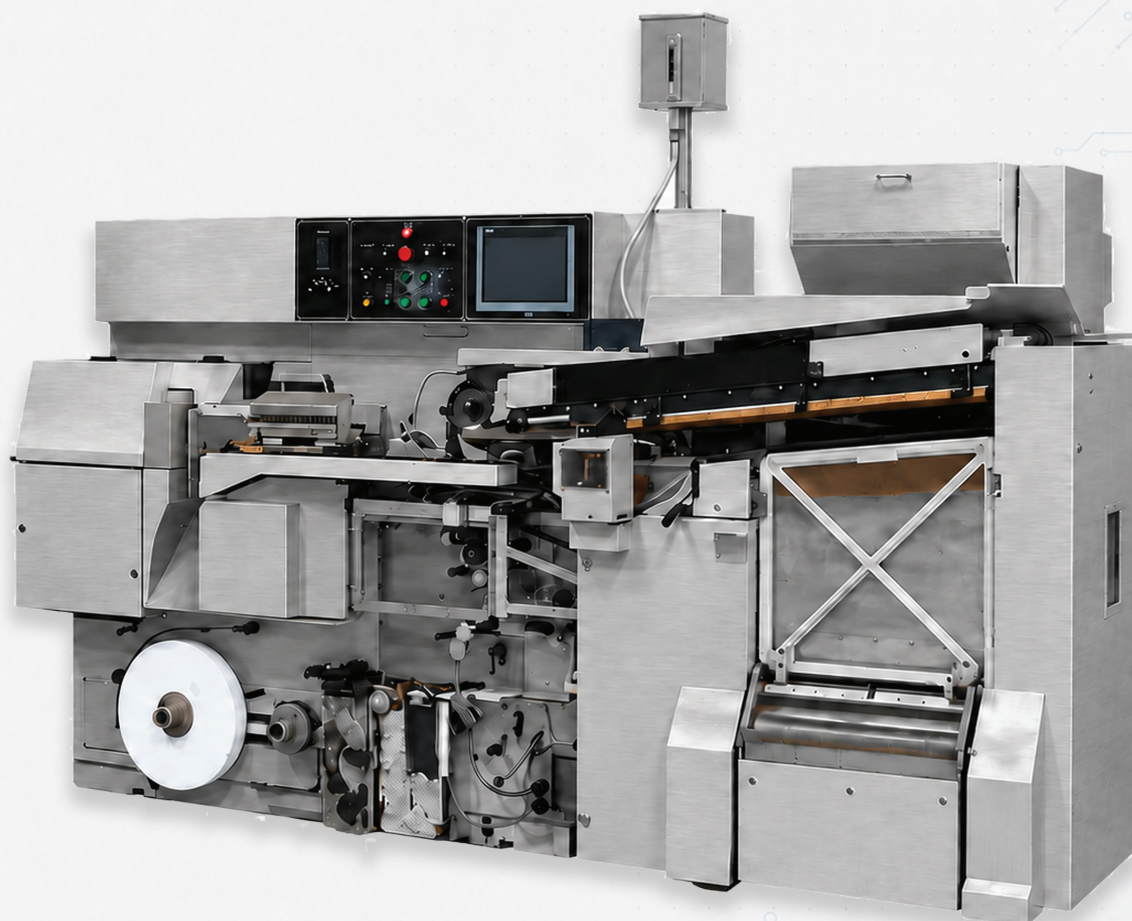

CIGARETTE MAKING LINE

UPTO 5000 CPM

ROD MAKER

MK-9.5

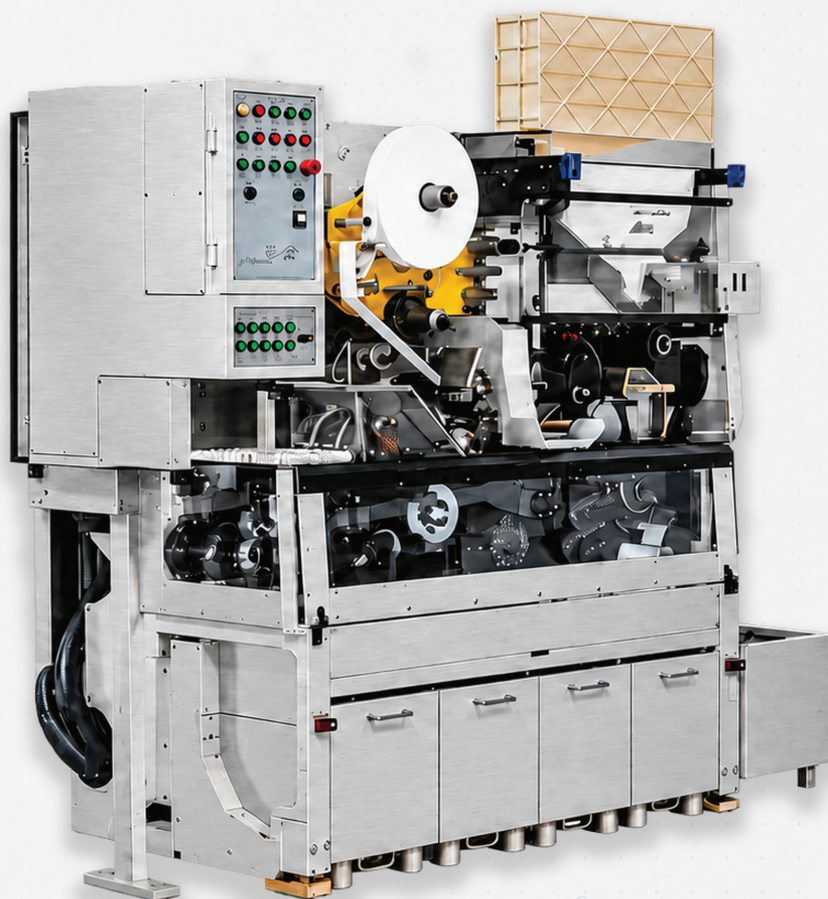

FEATURE

SPECIFICATION

	Customizable Cigarette Rod Length	Capable of producing cigarette rod length up to 170 mm.
	Cutter Assembly	Features a high precision cutting mechanism for precision cut.
	Printer Assembly	Printer equipped with double colour option enabling high quality branding.
	Microwave Weight Control Unit	Microwave scanning for weight control for consistent product quality, reducing variance in product weight.

FILTER ASSEMBLER

MAX-S

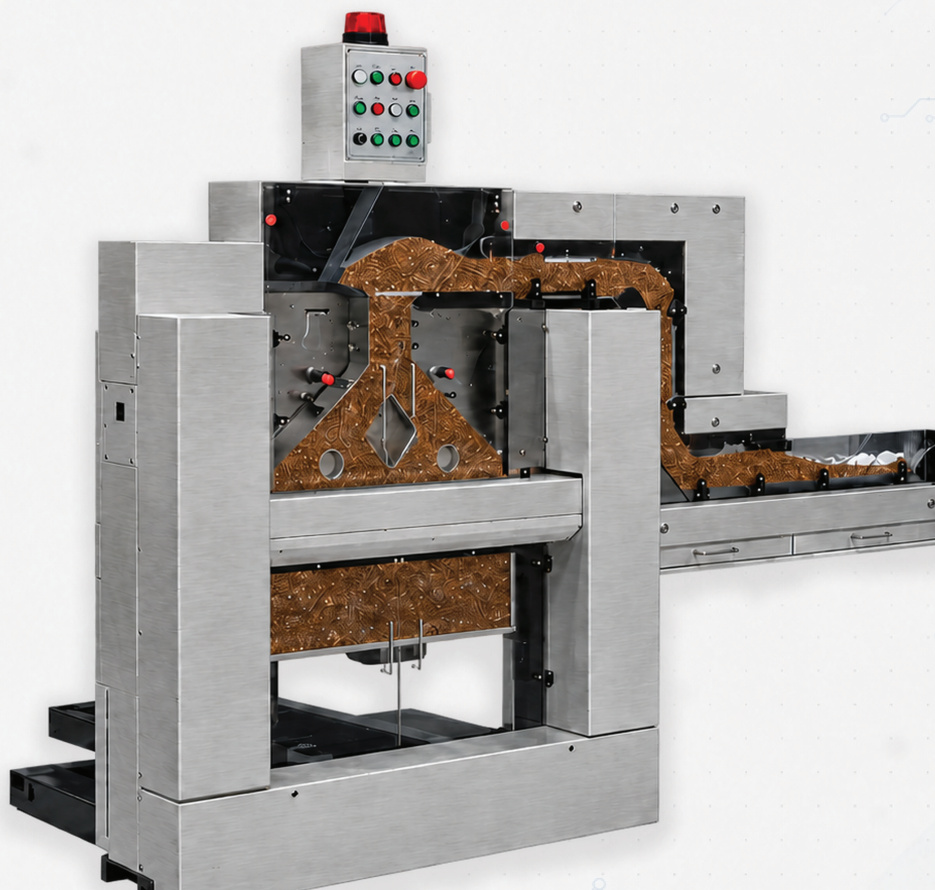

FEATURE

SPECIFICATION

	High-Volume Processing	Processes up to 5,000 cigarettes per minute.
	Cigarette Inspection System	Inspects cigarettes for defects during production.
	Automatic Bobbin Changer	Automates paper bobbin changes to reduce manual intervention.
	Tip Turning Assembly	Turns cigarettes to align filter tips in one direction.

TRAY FILLER UNIT

HCF-80

FEATURE

SPECIFICATION

	Automatic Tray Filling	Automatically fills trays with cigarettes.
	Controlled Product Transfer	Transfers products from maker into a slowly descending tray.
	Empty-Tray Handling	Moves empty trays from the rear station to the filling position.
	Production-Line Buffer	Buffers maker output during temporary packer stoppages.

TECHNICAL DATA

CIGARETTE SIZES

Cigarette rod length (Maker)

Min 48 mm

Max 90 mm

Filter Sizes (Max-V)

Min 11 mm

Max 60 mm

Cigarette dia

Min Ø4.4 mm

Max Ø8.9 mm

MACHINE DIMENSIONS

MK-9.5 / Max-S:

Longest side 3600 mm

Weight:

8500 kgs

POWER & UTILITIES

Power capacity:

15/20/35 KW

Power supply:

220V & 380V

Servo Motors

Beckhoff

Controller:

Beckhoff PLC or VFD

Motors:

Lenze

Bearings:

SKF / FAG

KEY FEATURES

- High productivity with low maintenance
- Compact size with >90% efficiency
- Beckhoff Soft PLC with Main Touch Screen
- TFU control integrated to main panel
- Festo Pneumatics
- Cigarette Inspection system
- Wastage 1.5 to 2%
- Powered by latest Servo motors

Automated Cigarette Making Machine

Speed upto 5000 Cigarette per minute

Quicker Brand Change

Readily Available Spare Parts

Advanced PLC Performance Management

Intuitive user experience through Beckhoff touch screen display

Low maintenance cost / servicing cost

Designed for Durability

WHY CHOOSE DASTAGIR MACHINES?

Uncompromised Quality

Each part is crafted with meticulous attention to detail to meet global standards.

Value for Money

In-house manufacturing enables us to offer competitive pricing without compromising on quality.

End-to-End Solutions

From concept to completion, we oversee every aspect, ensuring complete control and consistency.

Global Expertise, Local Commitment

Trusted by industry leaders worldwide, we bring international expertise tailored to meet your unique requirements.

PRECISION, RELIABILITY AND EXCELLENCE

Our state-of-the-art manufacturing facility combines large-scale production capabilities with rigorous quality inspection at every stage.
